Erratum

In the article ‘Engineering the Rapid Adenovirus Production and Amplification (RAPA) Cell Line to Expedite the Generation of Recombinant Adenoviruses’ [Cellular Physiology and Biochemistry (2017) 41 (6): 2383–2398. <https://doi.org/10.1159/000475909>] by Wei et al., there is an image assembly (copy/paste) error in Figure 3A, in which the image for the 293T-E1A group was erroneously duplicated with an image from the 293T group. The error was made by the authors when they replaced the draft figures with high resolution images. The authors state that this error does not adversely impact the conclusion of the original work. Nonetheless, we apologize for any inconvenience caused by the error to the journal and scientific community.

The corrected Figure 3 is shown below.
